

Looking to do something extra special to celebrate a big birthday or even a milestone anniversary coming up, or just want to treat yourself and your friends or family to a day to remember. We can help arrange your tailor-made special day.

Your Woods chauffeur will collect you from your address in our luxury six-seater Mercedes and take you to your chosen destination. All our wish days are bespoke, and if you have a particular venue or event in mind, we will work to your specifications and can help you research and choose the perfect day out. It doesn't have to be just one day; we can also arrange overnight accommodation and an itinerary of your choice.

A few of the Wish Days we have arranged include a West End show with an included lunch close by, a river cruise with onboard afternoon tea, a visit to an art exhibition and a personalised driven tour of London, visiting local places of personal significance, with a lunch included en route.
